

Single-Stream Recycling is Here !

Hello! H&H Disposal and East Lansdowne Borough have partnered to implement a new **Single-Stream Residential Curbside Recycling Program.**

East Lansdowne, PA

Implementing this new program will reduce the costs of regular residential waste disposal by significantly lessening the amount of recyclables that are being thrown in the trash each and every day! Not only is this economically beneficial, but this program also enables our on-going effort to help our environment.

- ✓ Each resident may use a regular trash can for recyclables, but this can must have a sticker that says "Recycle" on it. This sticker can be picked up at the Borough Hall.
- ✓ Please remember, that your regular trash & recyclables must be in **two separate containers.** Otherwise your can will NOT be emptied during collection. This goes for both trash & recyclables.

Residential recycling will be collected curbside every **Wednesday** beginning July 1, 2015

If a holiday falls on a Wednesday, Recyclables will be collected the following **Wednesday.**

Questions? Contact East Lansdowne Borough office (610) 623 - 7131
